HOME DEPARTMENT.

(Police.)

Bombay, 11th January 1916.

No. L.C.—His Majesty the King, Emperor of India, has been pleased to confer the King's Police Medal on the following officers and men of the Indian Police establishments:—

King's Police Medal.

Madras.

Statement of services for which in particular the honours have been conferred.

Name of officer and rank.

(1) Richard Howard Hickcock, Superintendent of Police.

A serious outbreak of crime began in the South Malabar District in December 1914, and culminated in a fatal outbreak on the part of a gang of Hoolies. Mr. Hickcock made useful and continuous enquiries, established signalling parties to disseminate information, and kept a close watch on dangerous and suspected criminals. When the fatal outbreak came he had his forces ready to meet it, and by his promptitude and resource put a speedy end to it. Mr. Larn, the Collector of the district, was embroiled on the 25th February between Pandol and Kaseerghode; Mr. Hickcock was on the spot at once, searched for the gang of Hoolies, obtained information of their movements the next day, surrounded them with his forces on the 1st March, placed the attack on the temple in which they had taken up their stand, and stormed it, killing three of the Hoolies and wounding four. His resources, energy, the outbreak and associated very dangerous developments of the situation. This is believed to be the first outbreak of this nature which has been quelled by the police aided by the military.

Names of cities and work.

- (2) Leslie, Watchman,
Inspector, Superior
Magistrate of Police.

Statement of service for which is particular the services
has been rendered.

During the disturbances of 1914 at Durban in the Natal district, Leslie being stationed between the Mahomedan and the Kafir, owing to long-standing enmity, Mr. Leslie was one of the first during the dangerous days of the trouble. On the 20th November this a Mahomedan approached him saying that the Kafir were going to do evil in their temple and that he might be injured. Mr. Leslie went to the spot, and finding some 70 Mahomedans round the temple, tried to induce them to disperse. They refused and when the half in the Kafir temple camp, began an attack upon the temple and endeavored to burst the gates in. Mr. Leslie's attempt at reconciliation between the parties, and while pulling two Mahomedans out of the temple, was smothered from behind, receiving injuries on his hand and shoulder. He seized a knife from a Mahomedan and threw away the others to the end of the street. There they stopped and were refused entry and began to hurl large stones and make noise at Mr. Leslie, but he could do nothing while the mob of 70 lay till the arrival of a party of the Kafir, which, after firing on the mob and wounding several of its members, forced it to disperse. That there was not serious injury to life and property was due entirely to Mr. Leslie's interposing himself and keeping the mob at bay, despite the injuries he had received, and constant arrest.

- (3) Leitch, Rev., Pro-
curator,
Sub-Inspector of Police.

During the riot at Durban in the Natal district in 1914, when the Superintendent of Police was being an authorized mob agent, then Sub-Inspector, then a head constable, went to the assistance of his superior officer and supported him in keeping the mob at bay until the arrival of reinforcements. During the course of the riot and the riotous of the mob the Sub-Inspector refused to take shelter until specifically ordered to do so by the Superintendent and though severely injured displayed great bravery.

- (4) Ellis, Tolagati, Asst.
Sub-Inspector of Police.

During the recent fatal outbreak amongst the Natives of the South African district, Sub-Inspector Ellis, Asst. Magistrate, rendered valuable assistance to his Superintendent and displayed great bravery. He was the first person to enter the scene of the outbreak of the movement of the gang of Natives, he followed them and actually got into communication with them, and discovered the place where they intended making their stand. With the aid of a small party of constables he watched their stronghold during the night of the 20th February till reinforcements arrived the next day. He then approached the temple in which they had barricaded themselves and endeavored to persuade the leaders to surrender. He succeeded in that they would be shot, but the men who had taken possession of the upper room of the temple gatehouse replied defiantly and refused to surrender. As the men were shot and sent to prison, Mr. Ellis was the first to enter the temple, who was in command of the force, and was present throughout the action which resulted in the destruction of the temple. It was largely owing to the courage and skill shown of Mr. Ellis that the lawlessness was so quickly brought under the control.

- (5) John Moore, Super-
intendent of Police.

On the outbreak of the war there was a movement among certain Christian "Guns" and leading Natives of the Natal district to join the British, the latter claiming that Germany would win the war and that there was no need to stay the British Government any longer. Mr. Moore had early information of the movement and kept the Agents in the Durban fully informed about it. The first party came with an attack on the 20th and 21st February in the neighborhood of Kwa-Natal, and on the 22nd he went to the spot, being joined by a party of Natives, Mr. Moore moved out with a party of police about 1000 yards and in the way took up a well-known position and had decided to make their stand. There the first of the party was brought to rest on the temple, and two of the gang who entered inside the temple were killed by it. Mr. Moore's outbreak was due to some part to his getting the men of the special police under his control to the scene of action.

- (6) Jack Elliot, Asst. In-
specteur of Police

Mr. Elliot did excellent work during the recent Natives outbreak in the South African district. On the night of the outbreak of special police he took part in the attack on the Natives on the 20th and 21st February in the neighborhood of Kwa-Natal, and on the 22nd he went to the spot, being joined by a party of Natives, Mr. Elliot moved out with a party of police about 1000 yards and in the way took up a well-known position and had decided to make their stand. There the first of the party was brought to rest on the temple, and two of the gang who entered inside the temple were killed by it. Mr. Elliot's outbreak was due to some part to his getting the men of the special police under his control to the scene of action.

Name of officer and rank.

Statement of services by which he entitles himself to the award.

(7) **Thiruvengadam Venkatasubramanian Ayyar**,
Inspector of Police.

This Inspector has a record of consistently painstaking work and has shown marked ability in the conduct of special investigations and in the control of difficult police cases, in which he has exhibited high qualities in fact in dealing with the people.

(8) **Abhinavaprasad K. Rajah Ayyar, B.A.**,
Deputy Superintendent of Police.

In the Chidambaram District a gang of persons who were associated together for the purpose of committing murder for money only (considerable) young into existence about 11 years ago and came prominently to notice in 1904. These persons were utilized in further fights and at last they set out assembly on their own as guides for murdering them and the business implied members of local farmers. As they grew bolder they seized the price of their services which varied according to the work and justice of the crime. Their action was carefully organized and steadily carried out in the districts was most difficult. In the absence of evidence sufficient to secure convictions under the Penal Code, it was necessary to conduct investigations against the gang under the Criminal Procedure Code, and Deputy Superintendent K. Rajah Ayyar worked up and brought to a successful issue the enquiry cases against the leaders and also secured great assistance in the prosecution of the case against them under the Criminal Tribes Act. Although his life was in danger he did his duty selflessly, and was largely instrumental in making the Criminal division of the masses in the town and security of their habitations.

(9) **Gurudas Nayyar**, head constable.

Head constable Gurudas Nayyar joined the department in 1905 and is now the senior head constable in the Madhavaram District. He has taken part in the suppression of six European murders, and has trained the ranks of Government in connection with those of them. During the outbreak of the present year he was in charge of the signposts and rendered valuable services both prior to the actual outbreak and during the emergency. During his long and able service in the police Gurudas Nayyar has accumulated an unblemished record of good conduct.

(10) **Edmund Murray Gillies**,
Outstanding Superintendent of Police.

On receipt of news of the rebellion in the Dargah State within the jurisdiction of the Government of Bihar and Orissa, Mr. Gillies marched the Chattraput Reserve from Chattraput to Dargah. Government officers were encountered as regular troops and finally Mr. Gillies decided to proceed, such was carrying his own supplies and ammunition. Though the revolt of Dargah was crushed only after the outbreak had been crushed by other forces, the Chattraput police secured great credit for the promptness of the assistance rendered by them, which was largely due to Mr. Gillies's initiative and energy. Subsequently, owing to his admirable arrangements, two of the leading rebels who were in Dargah territory were arrested by the Dargah Police. Mr. Gillies has received the thanks of the Government of Bihar and Orissa for the assistance rendered by him in connection with this outbreak.

10. Any breach or infringement of rules 3, 4, 5, 6, 8 or 9 will render the offender liable to imprisonment of either description as defined in the Indian Penal Code, which may extend to one month, or to fine which may extend to two hundred rupees, or to both, but nothing in this rule shall be held to interfere with such working of the forests as may be ordered by the Chief Forest Officer.

11. Any forest officer of the estate, who may be duly empowered by Government under section 55 of the Madras Forest Act, 1907, may, with the sanction of the Chief Magistrate to be obtained in each case, exempt from any process reasonably suspected of having contravened rules 3 to 6 or 8 a sum of money by way of compensation for the offence. Such sum shall not ordinarily exceed twice the amount of the rate, if any, payable by the offender under the schedule of rates notified by the Agent under rule 7.

studying the progress which has been made in industries and also in the most advanced countries of the world. The scheme provides for the award of two scholarships, and at least one of these will be available annually for each province.

Ordinarily the period for which these scholarships may be held is two years, but in special cases it may be increased to three years or reduced below two years. The rules of the scholarships have been fixed at £150 sterling a year exclusive of fees and travelling expenses, but if in any particular case the Government is found insufficient, the Government will be pleased on good grounds to consider its enhancement. The scholarships are tenable in Great Britain and, with the approval of the Secretary of State, in a foreign country.

2. The scholarships are awarded for the promotion of existing native industries and the development of new industries. They are not intended for the study of agriculture or for studying civil engineering, law, medicine, forestry or veterinary sciences, for which provision already exists in India, but may be awarded for the study of electrical or mechanical engineering. Since the institution of these scholarships, ten scholarships have been allotted to Madras—one was given in 1906 for the study of the weaving industry, one in 1907 for the study of the leather industry, one in 1908 for the study of textile chemistry as applied to the dyeing, bleaching, finishing and printing of textile fabrics, one in 1909 for the study of the chemistry of soap-making and the use of native oils, one in 1910 for the study of millinery, two during 1911, one for the study of weaving and one for the study of textile manufactures, one in 1912 for the study of electrical engineering, one in 1913 for the study of the leather goods industry, and one in 1914 for the study of spinning and weaving. None was awarded in 1915.

3. A State technical scholarship will be awarded in this Presidency during the year 1916 for the study of one of the subjects referred to above. Candidates desirous of prosecuting their study under this scheme should submit their applications to the Director of Public Instruction so as to reach him on or before the 1st February 1916.

Applications will be considered only from persons who have already interested themselves practically in some industry and who are desirous of improving their knowledge of that industry by further training in Europe. Other things being equal, preference will be given to graduates. Applicants should specify in their applications—

- (1) their age and educational qualifications;
- (2) the industry which they propose to study;
- (3) their connection with the industry;
- (4) the extent of their practical experience in it, and
- (5) the proof, if any, of their mechanical aptitude or industrial bent of mind.

4. The holder of the scholarship will not be bound by any engagement to serve the Government or the completion of his course, nor will the Government be bound to employ him. He must primarily depend upon his own resources to make his living on his return to India and must not primarily expect to be taken into Government service. In selecting candidates, the Governor in Council will be guided by soundness of capacity, character and practical fitness in the subject selected, and the assurance that the candidate will continue to devote himself to that industry on his return to India. No age limit is laid down for scholars. The course of study to be followed, as well as the place in which it is to be prosecuted, will be decided by the Secretary of State when a scholar arrives in England. Other conditions under which the scholarships are held are—

- (1) that the candidate is a native of India as defined in section 6 of the Government of India Act, 1907, viz., "a person born and domiciled within the dominions of His Majesty in India, of parents habitually resident in India, and not established there for temporary purposes only";
- (2) that he has the consent of his family (i.e., of his father or guardian) to proceed to Europe or America;
- (3) that his character is good;
- (4) that he has sufficient knowledge of the English language; and
- (5) that he is physically fit to undergo the course of life and study that he will have to follow.

5. The following rules have been framed by the Secretary of State for the guidance of Indian Government technical scholars in England:—

RULES.

(1) The Secretary of State considers it desirable that all Government scholars should avail themselves of the information and advice which the Educational Adviser to Indian Governments is in a position to give them, and those rules are framed with that end in view. Government scholars, equally with private students, may consult the Educational Adviser upon any question and will receive from him all possible assistance, and the Secretary of State hopes that they will communicate with the Educational Adviser, not only on the occasions when they are directed so to do in these rules, but also in any circumstances of difficulty and whenever they desire advice or information. Scholars will be regarded as being under the supervision

and charges of the Educational Adviser, to whom they should in all cases address any communications they may have to make, and to whom also all reports or other communications bearing reference to scholars should be sent. The Educational Adviser will bring to the notice of the Secretary of State on behalf of any scholar any question requiring his decision and will communicate to the scholar the orders issued by the Secretary of State.

(2) Every scholar should, on reaching England, at once call on the Resident and Adviser and report his arrival in writing. He should hence be in communication with the Educational Adviser and inform him from time to time of all changes therein.

(3) Every scholar should, without unnecessary delay, inform the Educational Adviser to which University, college, or other institution he is about to proceed, and should, at that time take steps to enter himself at the institution finally selected with his approval.

(4) Every scholar must, within four weeks of reaching England, submit to the Educational Adviser, for the approval of the Secretary of State, a statement showing the general course of study he proposes to follow to carry out the objects of the scholarship granted to him; and he should, during his first college term, submit a further statement showing, as accurately as possible the details of the total cost of such course of study. This latter statement should in every case be prepared in consultation with the principal of his college or institution at which the student is intended.

The course approved must not be changed without the sanction of the Secretary of State.

(5) Every scholar must give a written undertaking that he will devote himself exclusively, during the term of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

(6) Every scholar will be required to keep a special diary, to be certified by the authority under whom he is working, and to be submitted at the end of each term through that authority to the Educational Adviser and to the Secretary of State for transmission to India. He must also submit, in the same way, from time to time, full notes of the work on which he is employed.

(7) Scholars will be expected to continue their studies during the summer vacations of the institutions where they are working, with the exception of those works in each year. Vacation study should, when possible, take the form of practical work.

(8) Applications giving a detailed programme of the vacation work the scholar proposes to do, accompanied with a complete estimate of any extra expenses for freedom and travelling, must be sent in through the principal of the institution or the professor under whom the scholar is working before the end of the month of April. Scholars are not entitled to any substantial allowance on admission to the scholarship allowance during the time spent on vacation work, but a scholar who receives permission to visit the Continent may, if the Secretary of State in Council sanction that the case entitles him to do so, be granted a substantial allowance calculated at such rate as the Secretary of State may decide.

(9) Every scholar must, at the end of each term of residence at a University or college, submit to the Educational Adviser a certificate from the proper University or college authority, showing that his residence, conduct, and progress in study have been satisfactory during the term.

(10) Every scholar must at all times obey such institutions as he may receive from the Secretary of State, either directly or through the Educational Adviser.

(11) Subject to a due compliance with the above conditions, the allowance, at the rate of £125 a year for two years, or three years if so determined, will be paid quarterly, in advance, by the India Office, commencing before the date of the scholar's reporting his arrival in England. The first payment will be £37-10s. Three months after the date of reporting arrival the amount of the ensuing official quarter day will be paid. Subsequent payments will be made in advance on or after each official quarter day. The allowance will be reduced by the amount of any other pay which may become payable to him out of the revenues of India in respect of residence at a University, college, or institution during the same period or any part of it, but not in respect of University or college fees, the cost of which will be separately defrayed by the Secretary of State. When the private tuition fee is not defrayed by the Secretary of State, unless previously mentioned by him.

The necessary travelling expenses of scholars, by second class, or by third class if no second class is available, will also be separately defrayed by the Secretary of State, these should be claimed on forms obtainable from the Educational Adviser.

* The Educational Adviser's offices at 21, Grosvenor Road, South Kensington, S.W.

Deposits and other charges which are part of the regular fee created by the authorities of the educational establishments to which a scholar is working will be paid by the Secretary of State, but charges for books, instruments, land, bills and medical attendance must be paid by the scholar himself (any refund of a deposit must be repaid to the Secretary of State).

(12) No claim can be admitted for the payment or refund of any expenditure unless the scholar has obtained the previous sanction of the Secretary of State for India in each expenditure. (It does not apply to necessary travelling expenses referred to above.)

(13) Every scholar will forfeit his scholarship when, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required term of residence in England according to the terms and conditions approved by the Secretary of State under rule 4, or who is guilty of misconduct or disloyalty to the instructions of the Secretary of State. If a scholarship is forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of his scholarship declines to return to India, in accordance with the undertaking mentioned in rule 2, the scholar will lose his claim to a free return passage to India, and will further become liable to refund the cost of his free passage to England.

(14) At the expiration of his scholarship a scholar is provided by the India Office with a free return class passage to India. The scholar is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office without the special sanction of the Secretary of State. All communications on this subject are to be made to the Educational Adviser.

(15) Should the Secretary of State be advised that the state of a scholar's health is such as to render his return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.

Part II, Clause, January 4, 1905.

No. 1.—Authors, publishers and others who may desire to present works to the British Museum are informed that the Registrar of Books, London, will arrange to forward presentation copies to the Trustees of the British Museum. Cases or proofs of books intended for deposit should be addressed to the Trustees of the British Museum, care of the Registrar of Books, London, accompanied by a letter stating the subjects and requesting the Registrar to forward the books or proofs.

Part II, Clause, December 9, 1912.

No. 2.—The Right Honourable the Secretary of State for India has sanctioned the Institution, from Imperial resources, of an annual State scholarship of £2000 tenable in the United Kingdom or in foreign universities by Indian women graduates principally for the study of medicine, but occasionally for other educational purposes. The first scholarship will be awarded in 1916.

2. (a) The scholarship will be tenable for a period of three years in the first instance, with the possibility of extension in the case of medical students to four and five years;

(b) the scholarship will carry with it no conditions as to any subsequent course or service under Government and no expectations of such employment will be held out.

3. The following procedure will be observed in the selection of candidates for the scholarship:—

(a) Each Local Government has been invited to nominate annually a candidate who has passed the B.A. examination of an Indian university or, in the case of a medical candidate, who possesses an Indian degree in medicine. The candidate must produce medical evidence of physical fitness to undergo abroad the course of study proposed and her parents or guardians must make suitable arrangements for her maintenance during vacations. Nominations should be submitted not later than the 15th May of each year.

(b) The Government of India will select from among the candidates nominated by the Local Governments the one who appears to them to be the best fitted to hold the scholarship.

4. The candidate to whom the scholarship is awarded will be required to proceed to England within a reasonable time from the date of her selection and to reside there for a period of three to five years, as the case may be, unless compelled to return sooner by ill-health. The scholarship will be payable from the date of her arriving in England. She will be provided with a free second-class passage to England and also with a free return passage if she completes the full period of residence or is compelled by sickness to return within that period.

5. The scholar will, on arrival in England, be required to bind himself by a written engagement to submit to the following rules and to each other regulations as may from time to time be framed by His Majesty's Secretary of State for India for the guidance of scholars in England:—

(a) Every scholar shall, on reaching England, at once call upon the Secretary for Indian Students and report her arrival in writing. She shall leave her address with the Secretary for Indian Students and intimate to him from time to time all changes thereof.

(b) Every scholar shall, without unnecessary delay, inform the Secretary for Indian Students in which university she intends to proceed, and shall at once take steps to enter herself at the college she has finally selected with his approval.

(c) Every scholar shall, within four weeks of reaching England, submit to the Secretary for Indian Students for the approval of the Secretary of State a statement showing the general course of study she proposes to follow, with a view to carrying out the objects of the scholarship granted to her; and the course approved must not be changed without the sanction of the Secretary of State.

(d) Every scholar shall, at the end of each term of residence at a university, submit to the Secretary for Indian Students a certificate from the proper college or university authority, showing that her residence, conduct and progress in study have been satisfactory during the term.

(e) Every scholar shall at all times obey such instructions as she may receive from the Secretary of State either directly or through the Secretary for Indian Students.

(f) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three, or more, years, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting her arrival in England. The first payment will be £50. Three months after the date of reporting arrival the amount to the amount of the official quarter day will be paid. Subsequent payments will be made in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable in her out of the revenues of India in respect of residence at a university during the same period or any part of it, and also by the amount of any university or college bursar, of which payment is made by the India Office.

(g) Travelling expenses, hotel bills and charges for medical attendance are not delivered by the Secretary of State.

(h) Every scholar will forfeit her scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete a residence in England for the prescribed number of years of the scholarship according to the terms and conditions approved by the Secretary of State under (c) above, or who is guilty of misconduct or disregard of the instructions of the Secretary of State. If a scholarship is forfeited, or if it is so assigned before completion of its term, or if a scholar on completion of the term of her scholarship declines to return to India when indicated to do so, the scholar will have her claim to a free return passage to India, and will further become liable, at the discretion of the Secretary of State, to refund the cost of her free passage to England.

(i) At the expiration of her scholarship a scholar is provided by the India Office with a free second-class passage to India. The scholar is not entitled to make her own passage arrangements and to claim an allowance in lieu thereof from the India Office without the sanction of the Secretary of State. All communications on this subject shall be made to the Secretary for Indian Students.

(j) Should the Secretary of State be advised that the state of a scholar's health is such as to render her return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.
